PRODUCT INFORMATION:

Super strong magnet - max. 55kg holding force!

With a diameter of 125 mm and a holding force of up to 55 kg, it is a real powerhouse! The magnet is round, rubberised and has an all-round rubber lip as well as a practical release tab that makes it easy to remove. Depending on the version, equipped with an internal or external M6x19mm thread, it offers versatile fastening options.

* The forces have been determined at room temperature on a polished plate made of steel (S235JR according to DIN 10 025) with a thickness of 10 mm (1kg~10N). A deviation of up to -10% from the specified value is possible in exceptional cases. In general, the value is exceeded. The type of application (installation situation, temperatures, counter anchors, etc.) sometimes influence the forces enormously. The values given are for orientation purposes. Let our experts advise you.
