Magnetic clatches for flush installation

Article number	D mm	L mm	B mm	H mm	Adhesive force* N	Weight g	Temperature °C
MBS12x12	12	12.5		2	6	12.5	60
MBS20x10x5	20	5.5	10	2	15	10	60

APPLICATION:

These magnetic systems are suitable for flush installation in the furniture. They are fixed in the hole using a wood screw. Strong neodymium magnets ensure optimum adhesion, while the rubber cap supplied protects the magnetic core from knocks.

PRODUCT INFORMATION:

The systems are supplied including the matching counterpart. The rubber cap supplied ensures noise damping and an attractive appearance when installed.

* The forces have been determined at room temperature on a polished plate made of steel (S235JR according to DIN 10 025) with a thickness of 10 mm (1kg~10N). A deviation of up to -10% from the specified value is possible in exceptional cases. In general, the value is exceeded. The type of application (installation situation, temperatures, counter anchors, etc.) sometimes influence the forces enormously. The values given are for orientation purposes. Let our experts advise you.
